Install guide for Docker Desktop for Windows (be sure to check the requirements):

<https://docs.docker.com/docker-for-windows/install/>

Install guide for Docker Desktop for Mac (be sure to check the requirements):

<https://docs.docker.com/docker-for-mac/install/>

Docker toolbox (for older systems): <https://docs.docker.com/toolbox/overview/>

What is virtualbox? (used by Docker toolbox under the hood):

<https://www.techrepublic.com/article/virtualbox-everything-the-pros-need-to-know/>

Troubleshooting Docker Installations:

Docker toolbox issues:

<https://software.intel.com/en-us/intel-system-studio-docker-install-windows-troubleshoot-docker-toolbox>

As shown in the video, be sure to check “Install VirtualBox with NDIS5 driver” during Docker Toolbox installation. Restart your machine after installation. You should **not** need to update your host system BIOS if you are using VirtualBox.
