

Deployment of Machine Learning Models

Section 8.5 Notes

Commands

Open a pull request to explore CI usage (see section 5.3 tutorial):

```
git checkout -b your-branch-name  
git commit --allow-empty -m "Trigger notification"  
git push origin your-branch-name
```

Visit your repo and click open pull request

See the documentation: <https://help.github.com/articles/creating-a-pull-request/>
